THE NATIONAL CAPITAL.

Proceedings of Congressional Committees and at the Departments-The Postmaster General's Reception - The New Election Laws-Subsidies for Steamship Companies.

> WASHINGTON, Jan. 24, 1871. THE NEW ELECTION LAWS.

The House Judiciary Committee agreed yesterday to the bill amendatory of the enforcement act passed pt the last session. It is regarded as a very sweeping measure, and will in effect revolutionize the whole system of registraon and the holding of elections. Officers ppointed by the Judges of United States Courts, phose duty it will be to supervise all elections at which members of Congress are chosen. A general upervisor of elections is to be appointed by the iges of the United States Circuit Court, and under hun are to be a sufficient number of inspectors, whose of boards of registration in the respective precincts to which they may be assigned. The bill provides Btate or Territory for any State or other election at which a representative or delegate in Congress shall be chosen, shall be deemed a registration within the meaning of this act and also within the meaning of the act to which this is supplementary, netwithstanding the same shall also be made for the purposes of any State, Territorial or municipal election. These all-powerful in-spectors are also authorized to challenge any vote ofred, to be and remain where the ballot boxes are kept at all times after the polls are open until each and every vote cast at said time and place shall be counted, the canvass of all votes polled be wholly completed and the proper and requisite certificates or returns made, whether said certificates be reuired under any law of the United States, or any State, Territorial or municipal law. In short, these inspectors are to take virtual control of the registration and the polls on the day of election when a Congressman is to be voted for, and to look into every name registered and every ballot cast, whether it be for Congressman or for State and municipal officers. The State and municipal officers of election are to be supervised and inspected ad tibitum by the United States officers, and the latter are to be backed by all the power of the govern-

It has been decided at the War Department to transfer the surplus lieutenants of the artillery to the infantry, and the second leutenants of the latter arm of the service will have an opportunity of expressing their wish for transfer, if they have any, efore the transfers are made. It appears that the infantry is wanting in officers of the lower grade. and that the President has expressed himself as opposed to appointing men from civil life to fill the ancies while there is a surplus of artillery officers that can as well be assigned and save the government that much additional exense. From the tenor of the letters received at the War Department It is evident the young lieutenants are not disposed to ask to be transferred, as they prefer the dignity of the artillery service to that of the infantry. Should not a sufficient number desire the change the commanding officers of the artiflery regiments will then be called upon to recommenuch as, in their opinion, can best be spared.

A SUPPLEMENTARY ARMY REGISTER. The War D partment has in press a list of the commissioned officers of the several regiments of the army on the 1st of January, as consolidated and reorganized under the acts of Congress approved Marca 3, 1869, and July 5, 1870, with their respective dates of commission.

THE AMERICAN-MEXICAN COMMISSION AT WORK. In the United States and Mexican Commission yesterday, in the case of Thomas Devyer vs. Mexico. Commissioner Palacio announced the opinion of the Commissioners, awarding the claimant \$4,000 in American gold coin, with interest at six per cent per annum from the 18th of May, 1864. In the case of Mary Brincourt vs. Mexico, Commissioner Wadsworth announced the opinion of the Commissioners, rejecting this claim for want of jurisdiction.

ISSUANCE OF MARINE DOCUMENTS. The Secretary of the Treasury has ruled that upon the surrender of temporary marine documents other documents of a like character may be granted by collectors of customs to a vessel away from her home

THE CONGRESSIONAL LIBRARY.

it appears from the report of the Librarian of Congress that the library contains a total of 197,688 bound volumes, besides about 20,000 pamphiets. The operation of the new copyright law has increased the library during the past year to an unusually periodicals, 3,140; musical compositions, 2,891; engravings, photographs and chromos, 1,175; prints, 1.426; maps and charts, 146. Total, 11.512. Upwards of 5,000 copyrights have been recorded in the ubrarian's office during less than six months. ARATEMENT OF REVENUE TAXES.

The Commissioner of Internal Revenue, in a letter to the Chairman of the Committee on Ways and Means, states that since the passage of the var ous laws authorizing the Commissioner to abate taxes, about ten millions of dollars have been abated in consequence of the insolvency or absconding of parties assessed, and small percentage of these taxes has been collected after the abatement. He believes that if the collectors of internal revenue were allowed a special percentage to examine and collect taxes so abated a large percentage of the same would now be collected, in consequence of parties against whom the taxes were assessed having since became solvent. He recommends the passage of an act authorizing the allowance of commissions not to exceed twenty-five per cent for this purpose. STATISTICS OF COMMERCE AND NAVIGATION.

Monthly report No. 4 of the Bureau of Statistics, now in press, shows the statistics of our foreign trade for the month ended October 31, 1870, and for the ten months ended the same, compared with the corresponding periods of 1869. The following synopsis has been turnished by Mr. Young, Chief of

Bureau:—

Periode.
Import.
onth end. Oct. 31, 70. \$36,826,539
onth end. Oct. 31, 70. \$486,826,539

George L. Woods, of Oregon, who was yesterday hominated by the President for Governor of Utah Territory, is a native of Missouri. He has lived in Oregon for a number of years, and was the spokesman of the delegation from the Pacific coast which called upon the President, a few weeks ago, to demand the appointment of Senator Williams, of Oregon, as Attorney General in President Grant's Cabinet. He is said to be a fair lawyer and a good stump speaker. His views on the peculiar institution of Utah are not known, and it is doubtful if he has formed any very decided opinions on the

ARRIVAL OF SENATOR LOGAN. General Logan, recently elected United States Senator from the State of Illinois, for six years from the 4th of March next, made his appearance in the House vesterday, for the first time since his election. He was warmly congratulated by his colleagues on the floor of the House over his success. Logan says

a hard time in achieving it. The impression got broad through the State that the administration was against him. He did not take the trouble to correct this, but made the fight squarely on his own merits. Logan will remain a member of the House until the 4th of March.

THE WASHINGTON AND NEW YORK AIR LINE RAIL-

ROAD.

Judge Kelsey, of New York, made another attempt vesterday to pass the Washington and New York Air Line Railroad bill during the morning hour. The democrats, aided by the friends of the Baltimore and Ohio, the Philadelphia, Wilmington and Baitfmore, and the Camaen and Amboy Railroad companies, commenced to filibuster as soon as the bill came up, with a view to constime the morning hour and drive it over until next Monday. By dint of dilatory motions and calling the yeas and nays they succeeded. The bill has already twice passed the House during the present Congress, and there is believed to be a clear majority in its favor if a vote

could be reached. THE POSTMASTER GENERAL'S RECEPTION. The first card reception of Postmaster General and Mrs. Creswell took place last night. parlors were densely crowded with and gentlemen, including President Grant members of the Cabinet, foreign ministers, Minister Schenck, General Sherman, Admiral Porter and Senators and Representatives. It was one of the most brilliant assemblages during this winter. GOVERNMENT MORTGAGES ON SUBSIDIZED RAIL-ROADS.

The bill of Judge Lawrence, of Ohio, to secure the government a first mortgage lien upon all the property of the Pacific Railroad and other railroad com panies that have obtained subsidies in land or bonds from the government, was discussed yesterday in the Committee of Appropriations, to which it was referred some time ago. The object of the bill is to secure the government the amount of interest on the bonds of these railroad companies which it is by law bound to pay, and to so regulate the sales of the lands donated to them as to provide for a sinking fund that shall ultimately be used for the redemption of the principal of their debt. Since the attention of Congress was called by the Secretary of the Treasury to the failure of the Pacific Railroad Company to pay the interest on their bonds, the whole question of the liabilities of these roads has been discussed by members. Ben Butler has a resolution before the Committee on Appropriations authorizing the President to appoint three commissioners to examine into the affairs of the Pacific Railroad Company. This, nowever, has not been considered by the committee. The view taken by the members of the committee yesterday was that some such measure as that proposed by Judge Lawrence is necessary, not only to protect the government, but the private creditors of the company. The Union Pacific Railroad Company has been falling behind gradually until now it owes the government over six millions for interest paid on its bonds. Whether the bill now before the committee is what is needed was not determined, but it seems to be the general opinion that some law must be enacted to make the roads more directly responsible to the government. SUBSIDIES FOR STEAMSHIP COMPANIES.

The House Committee on Commerce yesterday heard an argument on behalf of the bill for subsidizing a line of steamers between New York, Vera Cruz and one or two other Mexican ports. This bill is similar in all its provisions to the one which was before Congress at the last session. It provides that the Postmaster General shall be authorized to contract with F. Alexandre & Sons, of New York, who now own a couple of steamers plying between New York and Vera Cruz, for the carrying of the mails between the two cities, touching at Havana and Sisal, at not less than \$5,000 currency per round trip. The committee does not expect to be called again this session, and of course very little interest is taken by the members in this and similar measures before them.

THE ASSISTANT SECRETARY OF THE TREASURY. Judge W. A. Richardson, of the Probate Court of Middlesex county, Massachusetts, and Assistant Secretary of the Treasury, will, it is stated, shortly resume his official duties at the Treasury Department. It is proposed to increase the pay of this official from \$3,500 to \$5,000 per annum. It is thought that the Judge might spend more of his time in Washington attending to the duties of Assistant Secretary of the Treasury and less in Massachusetts.

CIRCULAR TO COLLECTORS OF CUSTOMS. The Chief of the Bureau of Statistics has addressed a circular to collectors of customs throughout the country calling their attention to the fact that upwards of sixty classes of articles enumerated among "commodities subject to duty" in the schedule for the home consumption and import statement, have been made free of duty, in whole or part, under the provisions of the new Tariff law. As it be a matter of special interest legislators and others to know the effect which this ange in the tariff may have upon the and consumption of the specific commodities made free by that act, he has requested collectors to enu-merate separately from and after January 1, 1871, in their statements of home consumption and imports, under the head of "commodities free of duty," the classes or parts of classes so made free. This will enable the Bureau of Statistics to furnish satisfactory information upon the question of free trade, as well as for purposes of comparison with the records of previous years.

TRANSPORTATION OF BONDED MERCHANDISE. The Camden and Amboy Ratiroad Company will to-morrow enter into bonds in the sum of \$100,000 for the transportation of merchandise without appraisement from New York to Philadelphia, and will be the first company in the United States to test the system and regulations prescribed by the Secretary of the Treasury. It is stated that this road is admirably equipped with the little cars for transporting imported goods that arrive in small invoices, and will be ready to commence business immediately after executing the necessary papers.

THE LAND OFFICE COMMISSIONERSHIP. The Senate Committee on Public Lands on the 20th agreed to report favorably the nomination of Willis Drummond, of Iowa, to be Commissioner of the Public Land Office, in place of Mr. Joseph Wilson, whom the President has determined to turn out. Subsequently, when the Senate went into executive ses sion, the nomination was reported favorably by the chairman of the committee. Mr.

Wilson asserts that his friends in the Senate will make a vigorous fight to retain him. His friends, however, are neither strong nor numerous. They are such men as Tipton, of Nebraska, and Ross, of Kansas; men who are opposed to the administration, and who have little or no influence with the Senate.

INCREASED TAXES FROM FRUIT DISTILLERS. An examination of the receipts from brandy distilled from apples, grapes and peaches, for the months of July, August, September, October and November, 1870, shows an income of \$321,652 over the same months in 1860, the receipts for the latter being \$287,164, and for the former \$608,816. The gain is attributed to the liberal provisions made by the Revenue Bureau last summer, governing fruit distillation, which largely increased the number of fruit distilleries in the South and West. The later months of this fiscal year will show even larger returns than those indicated above.

BILL FOR THE ADMISSION OF COLORADO. The Senate committee this week will report a bill for the admission of Colorado into the Union. STAMPING COUNTERFEIT NOTES.

A Western banker recently wrote to Treasurer Spinner, suggesting that all officers of moneyed corporations should be required to stamp the word "counterfeit" on all spurious money presented to them. The Treasurer replied that such regulation could not be made without legislation, although he believes any one has a right so to stamp, as this does not lessen the value of the paper.

CONSUL RECOGNIZED. The President has recognized Juan De D. Restrepa, Consul General of the United States of Columbia, in

SOUTHERN PACIFIC RAILROAD LAND PATENT. In accordance with the law President Grant has directed Secretary Delano to Issue the necessary patent for the lands to the Southern Pacific Railroad on account of the completion of the first section of thirty miles of that road, which has been favorably reported on by the government commi-

POLAR EXPLORATION. Captain Hall arrived here yesterday to make further arrangements for his expedition, and has that, although the victory was a decisive one, he had secured the Pertwinkle, formerly a turbout, to be

fitted for steam as well as sailing purposes. He will

leave in May. The Comptroller of the Currency has authorized the State National Bank at New Orleans, it having a

Capital of \$590,000, to commence business.

DANGEBOUS COUNTERPET NATIONAL BANK NOTES The Committee on Banking and Currency, through a sub-committee, consisting of Messrs. Cox, Bur-chard and Coburn, have been in communication with the Secretary of the Treasury with the view of ascertaining whether the estimate of \$250,000 for reprinting from new plates the twenty and ten dollar notes of national banks cannot be reduced. There is no doubt the committee will report a bill for that purpose, owing to the circulation of well executed counterfeits of these denominations,

MON. JASPER B. BRADY, formerly a member of Congress from Phitsburg, Fa., died in this city yesterday morning, in the seventy-fifth year of his age.

IMPORTING BLOODED STOCK.

Bulls, Cows, Ponies, Hogs, Fowls and Birds Arrived at New Orleans.

[From the New Orleans Pleavane, Jan. 14.]

The saip John Parker, from Liverpool, arrived yestorday morning, having on board a large stock of the cows, nogs, pomes, sheep, dogs and ponitry, all of which are in remarkably the condition. We regret to learn that during the voyage most of the English sparrows, imported for the exbress purpose of experimenting on the cotton worm, died. There are only some four or live left out of several hundred that were shipped.

This loss was somewhat counterbalanced to the owner by the increase of the live stock by five calves. The ship was kept so remarkably clean during the voyage that there is no perceptible or disagreeable outer about her, and a person on deck would only be made aware of the presence of stock by the lowing of the cattle.

During the afternoon the ship was visited by several iddes and gothermen of this city, who paid high compliments to Mr. Edward P. P. Fowler, the importer of the stock, and who disclaimed the credit and introduced Mr. Joseph Moody, of Hamp shine, England, who had, with the help of one or two assistants, the entire charge of the whole stock during the voyage. As evidence of the care bestowed upon the animals one has only to observe their beauful glossy coats, which are as free from dust and dirt as any well groomed horse. Mr. Moody has become quite an adopt in the care of stock a sea. Ble had charge of the large for imported by Mr. Paleer in this sale ship a year ago, and during the reproduction of the large for imported by the production of the large for imported by the production of the large for imported by the production of the production of the century of the stock of the amount of lorage necessary for such a voyage may be had from the fact that over fourteen tons of hay were put on board previous to leaving Liverpool. The following is a short resumed from the many her produces the production of the century of the production of the contract of the production of the production of the work of the century of the production of the production

reflects the highest credit on captain, mates and crew.

The sparrows above referred to—only a few of which which were saved out of four hundred in number—were piaced on board each in a small cage, such as Canaries are imported in.

The ship was only out about a week when the birds began to show signs of sickness, the cause of which has since been attributed to the dryness of the food prepared for them, and they began to drop off, at first gradually, and then, as the ship entered the tropies, at the rate of ten or tweive a day.

We understand that another lot of these famous little enemies of worms, bugs and species of destructive insects will be sent out shortly by steamship to this port.

MISCELLANEOUS FOREIGN NOTES.

General Tom Thumb and his wife arrived at Madras on the 31 ult. Some Russian journals express anxiety at the im-

proved relations between Germany and Austria. A torpedo detachment, consisting of flity pioneers and thirty saliors, has left Kiel for Paris, with a

view to closing the Seine.

Three Russian vessels are building and nearly completed in Samuda's ship yards on the Thames. It is said they are mercantile, not naval, ships. The Staatz Anzeiger says that the loss of the Baden division in the battle of Nuits was fifty-four officers and 934 rank and file killed, wounded and missing. The Cologne Gazette says that the German com-mander before Belfort has given permission for women, children and people of old age to leave the

where cats, dogs and rats are on the bill of fare, the proprietor has stuck a bill at his kitchen door headed, "Forced union between beiligerents." The London Times correspondent at Pera says that there are renewed differences between the Porte and the Khedive. The Porte complains of disregard by the Khedive of his last firman, especially as regards armaments.

It is the intention of the English government to establish a military barracks at Northampton, and the corporation is asked to grant a lease of twenty-ave acres to the government. A meeting has been called at Northampton to consider the matter.

M. Michel Chevalantien to consider the matter.
M. Michel Chevaller, in an articlein the Journal du Havre, says that by heiping France to resist and check the overgrowth of Frussia, England would act in her own interest; and he adds that, once France is crashed, the English home army must be raised

It is stated that the English government have made arrangements for the immediate production of a large number of breech-loading rites of the Henry-Martini pattern, and that the necessary ma-chinery will be constructed under the superintend-ence of M. Martini.

The Rappel says that the aspect of Paris at night in consequence of the extinction of gaslights is very singular. Many persons find it convenient to carry lanterns, and for their accommodation a new kind of lamp has been invented, which is carried easily by being suspended from the button hole of the The Celogne Gazette states that at Vienna

Thiers happened to stay at the same hotel with M. Ranke. The two historians direct together, and M. Thiers put the question:—"Against whom does Germany, in fact, fight at this moment?" "Against Louis XIV." answered M. Ranke. M. Thiers did not

reply.

The London Army and Navy Gazette says that:—
"It is a painful task for us to announce that stips are now kept longer on foreign stations than is prudent simply from the fact that our reserves are so miserably low that we have no vessels to despatch for their relief. The Lords of the Admiralty are blameless in the matter. They are anxious to repair and build, but they are restrained by those in whom is intrusted the disbursment of the public money. There must be soon a day of reckoning."

The Baltimore Gazette thinks a man cannot be educated to be an editor.

Mr. John W. Dalgarn has become the sole owner of the Spirit, of Jefferson, Va.

Mr. James H. Moore, having been appointed to his old position as Steward of the Insane Asylum of the State, retires from his editorial connection with the Raicigh (N. C.) Sentinel.

State, retires from his colitorial connection with the Raicigh (N. C.) Sentinel.

Rev. Mr. Lyman Abbott, formerly of Maine, well known in literary circles, has been elected editor of the new illustrated weekly newspaper, to be published by the American Tract Society.

The St. Louis Republican is a democratic paper, and the St. Louis Republican is a republican paper. It would be a great relief to the news editors of the country if they would swap names.

The Rome (Ga.) Commercial made its appearance the other morning with a hole in it. The editor explained it the next issue by stating that he had discovered an objectionable article after the edition had been worked off, and had clipped it out of all the papers before sending them off.

AMERICANS ABROAD.

The following is a list of Americans registered at he offices of Bowles Brothers & Co., 449 Strand, Charing Cross, London, and 12 Rue de la Paix, Paris, for the week ending January 7:-

for the week ending January 7:—
